**DURO
Water System**

The water pumped, and carried each day by the average woman often weighs a ton. That's working a woman more unbearably than any sensible farmer would work a mule. With a DURO water system, chores and house work are quicker, easier and better done. It always saves money in the end.

? DO YOU KNOW ?

That 5c worth of electricity will do the average washing?

Two hours of ironing can be done in one at a cost of 10c. Let electricity work for you.
